

Frédérique (Fred) Carillo says, "This product is amazing "

I found out about this water in June 2008. In May 2008, I had a condition called "xanthogranulomatous Pyelonephritis" for those who know what that mean.... It's actually really big kidneys, Kidneys stones and inflamed Kidneys. I was very sick for about 1 month because of this condition. The doctors said that I had to remove some of my stones in order to give my kidneys the longest life possible – he told me that people with this condition very often have to have their kidney(s) removed. So I went for my first surgery where they removed some of the stones on the right side. I was doing well and I was back to work 2 days after. A month later he did my left kidney and oh my god I never had been in so much in pain my entire life! I couldn't eat, couldn't move was crying every night because of pain - even though I was taking pain killers. I wasn't able to eat and lost 17 pound in 3 weeks... and I had a big lump growing on my left side... We got worried so I went back to the emergency room and so I was up for a 3rd surgery.... They discovered that the rest of the stone moved and blocked the flow from the Kidney to the bladder. The lump I had, was blocked urine. They put in a stent (a tube to let the urine flow) to drain the fluids and that was it. I woke up really better! But the doctor wanted me to get back in shape and then do another surgery to remove more stones so he could then remove the stent. He gave me a month. Right after that I met a friend of mine called Michael, he gave me this water to drink. I consumed it for a month and when I went back to the doctor, I asked him if he could check me out before doing another surgery -I wanted to know if the water was doing anything. He did an X-ray. One week later the doctor called me and was very interested in what I was doing.... I told him I was drinking alkaline water. He said "water's not gonna do anything for you..." I inquired why he was asking. He said that my stones had reduced like crazy!! That he never saw this, his entire carrier (35 years) and he finally told me what I was waiting to hear: I did not need surgery anymore!!! I was so happy and bought my machine right then!

Now I also have big results with migraines that I used to have every month.... I don't have them anymore! Also my husband - who had back pain - drank the water and to his amazement after a short time he has no more back pain. Another great story is one of our staff came to work with fever and vomiting. She drinks some of the water vomited one more time and then very quickly she felt normal when usually she said this will last for at least a week or 2!!!"

– So I'm very happy and I really recommend everybody to drink this water!
